[Geofeedia](#)

**BREAKING NEWS:**

The Geofeedia Security Operating Center is actively monitoring social data around an explosion in the Chelsea neighborhood of New York City (23rd St. and 6th Avenue). Developments around the event are being actively chronicled by bystanders in the area.

Below is a link to a **Live Feed** of the location around the explosion. Please note, this is an active feed that will include the most recent content coming from the area (as well as unrelated content in the area). Please scroll back to roughly 8:30 pm ET in the collage view to see social data at the time of the explosion.

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

## Receive alerts when important posts are made from within your Geofeeds

If you have the recording feature activated on your account, you can receive real-time email alerts when posts are made from within your recorded Geofeeds. Each alert can be triggered by up to 50 keywords and/or usernames and applied to multiple Geofeeds. Here's how to set them up (screenshot below):

1. While viewing an active recorded Geofeed, click the alerts icon in the main toolbar
2. Give your alert a name
3. Enter up to 50 keywords and/or usernames, comma delimited
4. Apply the alert to one or multiple active recordings
5. Select the members of your account who should receive the alerts
6. Click Save

**That's it!** When posts are made that match your criteria, an email will be sent with the details and a link to view the item in Geofeedia. If you don't have the recording feature activated in your account but would like to be able to archive content from your feeds and use alerts, get in touch with our support team at [support@geofeedia.com](mailto:support@geofeedia.com).

**Subject:** Re: GeoFeedia Question

Hello Kelley,

You do have to record the everything in order to capture the information coming through and then filter down for the specific words. However, if you want to have alerts pushed to you for certain keywords, phrases & usernames, you can click on the bell icon next to your recording button. This will then send e-mail notifications anytime one of those keywords appear. You can then create a Collection for those specific alert words to segment the posts out of larger recording.

Does that help answer your question? See the resources link below that has a tutorial video for activating Alerts and creating Collections:

<https://app.geofeedia.com/home/resources>

Hope this helped!

Hi Carly,  
I wanted to set up a recording in GeoFeedia with an area but only for selected hashtags / key words. Is this possible? Or do I have to record everything and then filter down?

Thanks!

Not rendering correctly? View this email as a web page [here](#).

[Geofeedia Logo](#)

Geofeedia Users,

Wow, what an exciting Super Bowl last night! While you were watching last-second interceptions, Katy Perry flying and dad-themed commercials, ticket holders in Arizona shared [almost 17,000 posts](#) from inside and around University of Phoenix Stadium.

To understand how Super Bowl XLIX ticket holders experienced the actual game live, the Geofeedia team [created a geofence](#) around the Super Bowl XLIX stadium. We collected almost 17,000 posts with a location tag, and here's what we learned:

- **The conversation doesn't always have the keywords and hashtags you're researching.** 66% of posts didn't contain keywords including: super, bowl, patriots, seahawks or sb49
- **Understanding a location means understanding microlocations.** The conversations in the north end zone seat differed from the south end zone, and ticket holders at the 50 yard line were really into the venue.
- **Listening to all social channels is critical.** 66% of the conversation was via Instagram posts, with the remainder of conversations spanning across many other social networks.

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

[>> REGISTER NOW: Best Practices for Large Event Safety & Security Management](#)

Please let me know if you have any questions or if you would like to learn more about the new Geofeedia Security Operations Center and Team.

Best,

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

**Subject:** Event Brief for the 2016 Olympics - Preparing for Large Events

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

**Subject:** Event Brief for the 2016 Olympics - Preparing for Large Events

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

**Subject:** Event Brief for the 2016 Olympics - Preparing for Large Events

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

[>> REGISTER NOW: Best Practices for Large Event Safety & Security Management](#)

Please let me know if you have any questions or if you would like to learn more about the new Geofeedia Security Operations Center and Team.

Best,

**Subject:** Event Brief for the 2016 Olympics - Preparing for Large Events

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

[>> REGISTER NOW: Best Practices for Large Event Safety & Security Management](#)

Please let me know if you have any questions or if you would like to learn more about the new Geofeedia Security Operations Center and Team.

**Subject:** Event Brief for the 2016 Olympics - Preparing for Large Events

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

[>> REGISTER NOW: Best Practices for Large Event Safety & Security Management](#)

Please let me know if you have any questions or if you would like to learn more about the new Geofeedia Security Operations Center and Team.

Best,

**Subject:** Event Brief for the 2016 Olympics - Preparing for Large Events

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

[>> REGISTER NOW: Best Practices for Large Event Safety & Security Management](#)

Please let me know if you have any questions or if you would like to learn more about the new Geofeedia Security Operations Center and Team.

Best,

## Receive alerts when important posts are made from within your Geofeeds

If you have the recording feature activated on your account, you can receive real-time email alerts when posts are made from within your recorded Geofeeds. Each alert can be triggered by up to 50 keywords and/or usernames and applied to multiple Geofeeds. Here's how to set them up (screenshot below):

1. While viewing an active recorded Geofeed, click the alerts icon in the main toolbar
2. Give your alert a name
3. Enter up to 50 keywords and/or usernames, comma delimited
4. Apply the alert to one or multiple active recordings
5. Select the members of your account who should receive the alerts
6. Click Save

**That's it!** When posts are made that match your criteria, an email will be sent with the details and a link to view the item in Geofeedia. If you don't have the recording feature activated in your account but would like to be able to archive content from your feeds and use alerts, get in touch with our support team at [support@geofeedia.com](mailto:support@geofeedia.com).

This week the world was rocked by a series of explosions in Tianjin, China. Some areas of the city are still reporting ongoing fires. Tianjin's fire chief said that over 1,000 firefighters responded to the scene. See below for the collection from Tianjin as well as other current event collections from the week:

- What started as peaceful protests in [Ferguson](#) for the one-year anniversary of Michael Brown's death turned violent late Sunday night.
- [Black Lives Matter](#) activists took over a Bernie Sanders event in Seattle and requested a moment of silence in honor of Michael Brown.
- 3 million gallons of metal-filled waste spilled into the [Animas River](#) in Colorado causing discoloration and health risks.
- A huge [dust storm](#) hit Phoenix this week which brought downed trees and power outages.
- [Tianjin, China](#) is recovering from a warehouse explosion that has left dozens dead and hundreds injured.
- The PGA Championship began Thursday - even with a [strict photo ban](#) during Championship rounds, there is a lot of social content coming from the course.

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

**Subject:** Re: GeoFeedia Question

Hello Kelley,

You do have to record the everything in order to capture the information coming through and then filter down for the specific words. However, if you want to have alerts pushed to you for certain keywords, phrases & usernames, you can click on the bell icon next to your recording button. This will then send e-mail notifications anytime one of those keywords appear. You can then create a Collection for those specific alert words to segment the posts out of larger recording.

Does that help answer your question? See the resources link below that has a tutorial video for activating Alerts and creating Collections:

<https://app.geofeedia.com/home/resources>

Hope this helped!

**Subject:** Event Brief for the 2016 Olympics - Preparing for Large Events

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

**Subject:** Event Brief for the 2016 Olympics - Preparing for Large Events

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

**Subject:** Event Brief for the 2016 Olympics - Preparing for Large Events

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

This week's Content Roundup highlights the widespread severe weather we've seen recently. See the content we've collected below for an inside look at this week's current events.

- [Wildfires](#) continue to tear through the west coast, charring over 250 square miles in California alone and causing thousands of residents to evacuate.
- The Tampa Bay area had [road closings and abandoned cars](#) after major flooding.
- The Northeast had their own set of [severe storms](#) that resulted in downed trees and power outages.
- Communities across the country celebrated [National Night Out](#), an effort to promote positive relationships between neighborhoods and their local police.
- Police responded to an active shooter report who had multiple weapons after he entered a movie theater in [Antioch, Tennessee](#).
- Fox News hosted the [1st GOP debate](#) in Cleveland last night.

This week the world was rocked by a series of explosions in Tianjin, China. Some areas of the city are still reporting ongoing fires. Tianjin's fire chief said that over 1,000 firefighters responded to the scene. See below for the collection from Tianjin as well as other current event collections from the week:

- What started as peaceful protests in [Ferguson](#) for the one-year anniversary of Michael Brown's death turned violent late Sunday night.
- [Black Lives Matter](#) activists took over a Bernie Sanders event in Seattle and requested a moment of silence in honor of Michael Brown.
- 3 million gallons of metal-filled waste spilled into the [Animas River](#) in Colorado causing discoloration and health risks.
- A huge [dust storm](#) hit Phoenix this week which brought downed trees and power outages.
- [Tianjin, China](#) is recovering from a warehouse explosion that has left dozens dead and hundreds injured.
- The PGA Championship began Thursday - even with a [strict photo ban](#) during Championship rounds, there is a lot of social content coming from the course.

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

LOG IN

Hello,

As all eyes turn toward the Olympic Games in Rio, we know that you understand the massive effort that has gone into the security and safety initiatives leading up to the Opening Ceremonies.

Our newly launched **Geofeedia Security Operations Center** is partnering with our customers throughout the next 3 weeks to provide real-time event monitoring assistance. I'd like to share the Event Brief our team put together as a framework that you could use to set up Geofeedia for the games. It contains a number of configuration techniques for the Olympics and major events in general. I'd be happy to help you with your configuration for the Olympics or any future events.

[>> View the Event Brief for the 2016 Olympics](#)

We anticipate large volumes of Olympic content in the coming weeks and we plan to share relevant content with you on a weekly basis and in real-time for any breaking news events.

As a wrap up from the Olympic Games, the Geofeedia Security Operations Team is hosting a webinar on August 25, 2016 at 2pm EDT to share best practices around preparation for and management of live events to mitigate risk and increase situational awareness with real-time location based intelligence.

As 2014 comes to a close, we wanted to take this opportunity to thank those most responsible for making it an unforgettable year here at Geofeedia...**our amazing customers!**

Because of your enthusiasm for what we're trying to accomplish, word has spread and Geofeedia has grown. Because of your feedback and suggestions, our platform is more powerful than ever and helping to achieve some incredible outcomes.

What's better is that we're just getting started, and our commitment to you is to continue innovating into 2015 and beyond!

We hope you enjoy the holiday season and have a safe and happy new year, and **thank you** for your large part in making Geofeedia what it is today!

Sincerely,  
Team Geofeedia

[Geofeedia Logo](#)

Geofeedia Users,

Wow, what an exciting Super Bowl last night! While you were watching last-second interceptions, Katy Perry flying and dad-themed commercials, ticket holders in Arizona shared [almost 17,000 posts](#) from inside and around University of Phoenix Stadium.

To understand how Super Bowl XLIX ticket holders experienced the actual game live, the Geofeedia team [created a geofence](#) around the Super Bowl XLIX stadium. We collected almost 17,000 posts with a location tag, and here's what we learned:

- **The conversation doesn't always have the keywords and hashtags you're researching.** 66% of posts didn't contain keywords including: super, bowl, patriots, seahawks or sb49
- **Understanding a location means understanding microlocations.** The conversations in the north end zone seat differed from the south end zone, and ticket holders at the 50 yard line were really into the venue.
- **Listening to all social channels is critical.** 66% of the conversation was via Instagram posts, with the remainder of conversations spanning across many other social networks.
